

902-928 MHz 5.1 dBi Fiberglass Antenna Datasheet

Overview

The 5.1 dBi Fiberglass antenna is an outdoor, high-performance antenna, designed to withstand harsh outdoor conditions. It is specially designed for LoRa in the 902-928 MHz band – US915, AU915, AS923, and KR920. The antenna connector is one with the antenna body - this design further increases the resistance of the antenna to external conditions. With a length of only 480 mm, this antenna will be the best fit for your LPWAN gateway or outdoor deployed RAK Hotspot.

NOTE:

This antenna is designed to be directly mounted on the enclosure of the Gateway. It is suitable for the following RAK products:

- [RAK7240](#) 
- [RAK7249](#) 

The antenna is also compatible with the following:

- [Outdoor Enclosure for RAK Hotspot](#) 
- [Bobcat Outdoor Enclosure Kit](#) 
- [Antenna Magnetic Base](#)
